

# Standard Technologies

For the past 25 years, Autostart has consistently set the industry standards for remote car starter and convenience products. Autostart engineers use the most advanced technology to ensure users enjoy all of the most current features available.

## SmartStart Compatible

Start, control, or locate your car from virtually anywhere with your smartphone. You can add a directed Smartstart module to any compatible Autostart remote start or security with remote start system to make your system SmartStart ready. By adding a DSMC250 module, your system will also be ready for SmartStart GPS.

## Spread Spectrum Technology

Autostart Signature series systems employ Spread Spectrum Technology, Digital frequency hopping and multiple frequency transmission to assure that, if a frequency is blocked, the signal still goes through. SST also uses dual error correction systems to combat signal data corruption and minimize signal interference. The result is rock solid range of up to 5,200 feet.

## HDR Technology

HDR is an acronym for "High Data Rate" and is accurately descriptive of its function. Unlike most RF protocols, radio frequencies are broadcast at relatively slow speed which means that in the time it takes for a command to reach the vehicle it can be corrupted and therefore not be understood by the receiver. HDR bit transfer rate is 5 times faster than conventional RF technology and thus eliminates data transfer corruption with a rock solid range of up to 5,200 feet.

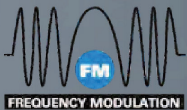

## Data-to-Data Technology

D2D stands for data to data and refers to the protocols used for the data interchange at the hardware device level (module to module) and protocols for data interchange at the application program level. D2D has multiple protocols at each layer in the communication exchange that both ends of the exchange must recognize and observe. This ensures that all of the data is accurately transmitted and received and even includes a check sum validation sequence.

## HDX Technology

HDX technology software is made to give the fastest confirmation of two-way systems by virtually operating in full duplex mode. Its great advantages are the user friendliness of the transmitter's operation, fast response time and the maximization of the transmitter's effective range.

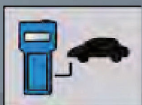

## FM Technology

FM is a transmission medium well-known for its better immunity to noise and interference than the AM transmission. FM provides a more stable communication of digital signals, therefore allowing better range, even in the worst environment. This is why Autostart engineering team has developed a line of two-way systems that strictly use FM signals, and extended the line of unidirectional models to include FM technology as well.

## Virtual Tach System

Virtual Tach System combines the latest microcontroller technology and a complex algorithm that took Autostart years to develop. VTS is able to effectively monitor the engine starting sequence and release the starter at the right time without physically connecting the tach wire of the remote start to the vehicle. The VTS constantly monitors the data and re-adjusts itself automatically in order to maximize its compatibility to start the engine properly in any weather or deteriorating battery conditions.

## Programmer Ready

Installation and diagnostic made easy, fast and simple connection to the car starter via the antenna cable allowing quick programming of all functions, options, Tach and transmitters. Along with built-in diagnostic tool and CAN ready OBD2 code eraser.

## Built-in Basic Alarm System

Add vehicle protection with simple and easy connections. Using the door and hood switches along with ignition sense as alarm triggers; if tripped, the factory horn will act as an audible deterrent.

## All-in-one Manual/Automatic Transmission Remote Starter

By default, the remote control car starters are for manual transmission but can be changed very easily, at the moment of installation, into automatic transmission remote control car starters.

# SMARTSTART

## Bluetooth Module

### Directed SMARTKEY Bluetooth Interface for SmartStart

- Use as standalone keyless entry system or the ultimate add on to Autostart security or remote start system
- Provides local RF back-up for Directed SmartStart systems if cell coverage fails
- The new DSKC100 connects your vehicle and smart phone with Bluetooth technology, allowing you to control your car via the Directed SmartStart app

**Here's how it works:** as you approach your car, the Bluetooth system in your phone connects with the DSK100 automatically. When you open the SmartStart app, it detects the Bluetooth connection and automatically executes your commands instantly.

### DSMC-200

### BC ASMC 100 Refurbished / Out of Package

- Start your vehicle with virtually unlimited range
- Warm your vehicle in winter; cool your vehicle in summer, lock, unlock, and open your trunk
- Can operate as a stand alone system to lock, unlock, open the trunk with virtually unlimited range  
**ASMC-200 only (optional standalone harness required part # ASM200250AH)**
- **SmartPark** - Directed SmartStart system even guides you back to your vehicle in case you forgot where it was parked
- **Directed Motor Club** offers peace of mind with road side assistance never more than a push of a button away
- **Smart Schedule** - Part weatherman, part mind reader  
Smart Schedule is a patent-pending technology that sends smart, behavior-based reminders to customers when it's time to start their car
- **Push Notification of Alarm Events** - Users receive confirmation when commands are received at vehicle and will be notified if their command was not received  
**ASMC200 only (excluding Auto & Astro systems, connected directly to car databus through a compatible interface such as DBALL2)**
- **Parking Meter** - Simply set the Parking Meter in the SmartStart app when you fill the real life parking meter. The app will keep track of how much time you have remaining on your meter and will let you know when it's time to go to refill

### DSMC-250

### Locate your car with your smartphone.

SmartStart GPS includes all of the start and control features of SmartStart, the ability to locate your car from almost anywhere, plus other exciting features:

#### Vehicle location and Speed

Press a button in the app and receive your vehicle's current location - plus it's speed if it's moving.

#### Speed Alert

With Speed Alert, request one-time notification when your vehicle exceeds your specified setting.

#### Lockdown Alert

Secure your vehicle with a Lockdown Alert and receive notification if your vehicle leaves that spot.

#### Social Media Check-In

Tell your Facebook friends where you're parked. Because your car needs friends, too!

#### SmartFence

Create a secure fence around your vehicle and be alerted when your vehicle leaves the area.

#### HotSpot

Add virtual zones at selected locations and be alerted if your vehicle enters them.

#### Curfew

Restricts the speed alert and movement setting to one programmable time frame.

All remote starter systems feature : Virtual Tach System, Keyless entry, trunk and starter kill outputs (relays not included), Programmable on-board 5th relay for 2nd Accessory, 2nd Ignition, or 2nd Starter, Ignition Lock, Diesel Mode, Cold Weather Timer, Programmable run time (2, 15, or 25 minutes) and are programmer ready.

**ALL REMOTE STARTERS AND COMBOS ARE XPRESSKIT (2WAY) INTERFACE COMPATIBLE AND FORTIN (1WAY) INTERFACE COMPATIBLE.**

**Booking orders must consist of a minimum of 144 Autostart units plus the same quantity of either Xpresskit, Idata, or Fortin bypass kits. All booking orders must be submitted before September 20 2014.**

**No further discounts will apply. Minimum pre-paid shipping before tax is \$ 1500. Prices and product specifications are subject to change without notice.**

**Credit card payment only accepted for C.O.D. (Non Term Account) sales.**

Models		Features
<b>1-WAY REMOTE STARTER SYSTEM</b>  		
AS-1272	  	The Autostart AS-1272 model is included with the smallest 2-button transmitter long range remote control. 1-way remote starter for Manual / Automatic transmission (configurable) with two transmitters. System can be configured for start/stop only or start/stop and lock/unlock. Mono-pole 433 MHz receiver with built-in status LED offers up to 1500 ft / 500 m of operating range. Features an extra output that can be configured as an adjustable OEM horn control or constant while pressed.
AS-1774SR	  	The Autostart AS-1774SR is one of the most popular 1-way systems in the industry. The AS-1774SR includes up to 1800 ft / 550 m of range, flexibility and two 5-button transmitters. Remote starter for Manual/Automatic transmission (configurable) with mono-pole 433 MHz receiver with built in bright blue status LED. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, and "Smart Secure Lock" OEM alarm control. Provides 2 auxiliary outputs for priority door access. Adjustable OEM horn control with Panic Mode. Constant while pressed or toggle ON/Off (39 sec. or 4 minute timeout).
AS-1780	  	Two 5-button transmitters with up to 3000 ft / 900 m of range. Remote starter for Manual / Automatic transmission (configurable) with mono-pole 433 MHz receiver with built-in bright blue status LED. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, and "Smart Secure Lock" OEM alarm control. Provides 3 auxiliary outputs for priority door access. Adjustable OEM horn control with Panic Mode, constant while pressed or toggle On/Off (39 sec. or 4 minute timeout).
<b>1-WAY FM REMOTE STARTER SYSTEMS</b>  		
AS-1880	  	Autostart AS-1880 FM includes FM technology and will provide maximum range and better immunity against RF interference. Autostart AS-1880 FM model, programmable 5th button operates as a stop button or to control the expansion module through shift key operation. HDR System 1-way remote starter for Manual/Automatic transmission, mono-pole 433 MHz receiver with built-in bright blue status LED, and up to 3000 ft / 900 m of operating range. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, and "Smart Secure Lock" OEM alarm control. Provides 3 auxiliary outputs for priority door access, adjustable OEM horn control with Panic Mode, constant while pressed or toggle On/Off (30 sec. or 4 minute timeout)
<b>2-WAY LED &amp; LCD FM REMOTE STARTER SYSTEMS</b>  		
AS-2381TW-FM	  	The Autostart AS-2381TW-FM includes all the practical features and ruggedness of a 2-way LCD transmitter but with the simplicity of a 1-way system. FM long range 2-way remote starter for Manual/Automatic transmission with multi-level, 5-button blue LED transmitter, mono-pole FM transceiver with built-in bright blue status LED, and up to 4000 ft / 1 Km of operating range. Features built in basic OEM style alarm with adjustable OEM horn control and Panic Mode, Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, "Smart Secure Lock" OEM alarm control, and constant while pressed lock and unlock. Compatible with optional MCX-100 offering 5 extra outputs and dome light supervision.
AS-2481TWS	  	The AS-2481TWS comes with one 5-button SST LCD 2-way transmitter and has up to 5200 ft / 1585 m of range. The unit features a Monopole antenna with embedded bright blue LED, User-programmable transmitter language using scrolling text (English/French/Spanish), Optional sensor for remote temperature readout, User programmable red/green back light illumination upon lock/unlock, Transmitter battery level indicator, On-screen engine running countdown timer, Clock with alarm function, Parking meter countdown, Multi-car operation, Built-in programmable OEM style alarm, Virtual Tach System, 3 auxiliary outputs, and a Configurable input.

Models		Features
<b>1-WAY ALARM STARTER COMBO SYSTEMS</b>  		
<b>AS-6270</b> 	<p>1-way alarm &amp; remote starter combo for Manual/Automatic transmission with two blue LED, 5-button transmitters, mono-pole receiver with built-in bright blue status LED, and up to 2200 ft / 670 m of operating range. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, "Smart Secure Lock" OEM alarm control, Panic Mode, Dual-stage shock sensor, 5 zone monitoring, 130db siren, programmable chirp duration for siren or horn output. Provided an auxiliary output for priority door access, constant while pressed, or toggle On/Off (30 sec. or 4 minute timeout).</p> <p><b>WHILE QUANTITIES LAST</b></p>	
<b>AS-6280</b> 	<p>The Autostart AS-6280 model offers the protection of a complete alarm system and the full convenience of a remote starter operated by a long rang 1-way transmitter. For Manual/Automatic transmission, mono-pole receiver with built-in bright blue status LED, and up to 2800 ft / 800 m of operating range. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, "Smart Secure Lock" OEM alarm control, Panic Mode, Dual-stage shock sensor, 5-zone monitoring, 130db siren, programmable chirp duration for siren or horn output. Provides an auxiliary output for priority door access, constant while pressed, or toggle On/Off (30 sec. or 4 minute timeout).</p>	
<b>2-WAY ALARM STARTER COMBO SYSTEMS</b>  		
<b>AS-6870 TW FM</b> 	<p>The AS-6870TW-FM is Autostarts top of the line LCD remote start and alarm combo. <b>HDR System, LI-ON rechargeable battery. Mini-USB charger included.</b> Mono-pole FM transceiver with built-in bright blue status LED, and up to 3500 ft / 1070 m of operating range. Features Idle Mode, Turbo Mode, Ignition Valet, Remote Valet, "Smart Secure Lock" OEM alarm control, Panic Mode, Dual-stage shock sensor, 5 zone monitoring, 130db siren, and constant while pressed lock and unlock. Capable of multi-car operation. Provides an auxiliary output for priority door access, constant while pressed, or toggle On/Off (30 sec. or 4 minute timeout).</p> <p><b>WHILE QUANTITIES LAST</b></p>	
<b>AS-6880-TWS</b> 	<p>The AS-6880TWS includes one 5-button, 2-way LCD SST transmitter, one 5-button, 1-way companion with up to 5200 ft / 1585 m of range. The unit features a built-in rechargeable battery with up to 30 days of battery life, recharges with any mini USB cable. Status via alphanumeric / icon LCD transmitter display, Signal reception / operation confirmation (beep / text). Bright backlit Liquid Crystal Display (LCD), 8 user-programmable LCD backlight color, 2-way communication with SST Technology, Monopole antenna with embedded bright blue LED, Six tone 120db miniature siren, Horn Output, DoubleGuard Shock Sensor, Failsafe Starter Kill output, Optional sensor for remote temperature readout, User-programmable red/green back light illumination upon lock/unlock, On-screen engine running countdown timer, Clock with alarm function, Parking meter countdown, Temperature Sensor Compatible, Multi-car operation, Virtual Tach System (automatic transmission mode ONLY), 2 auxiliary outputs, and a configurable input.</p>	
<b>2-WAY STAND ALONE SECURITY SYSTEM</b>		
<b>ASL-550TW-FM</b> 	<p>FM long range 2-way security system with advanced dual axis LCD vehicle display, multi-level, 6-button LCD transmitter, audible &amp; visual confirmation via LCD, one 5-button, multi level, blue LED companion transmitter, mono-pole FM transceiver with built-in bright blue status LED, and up to 3500 ft / 1070 m of operating range. Features active or passive arming, Ignition Valet, Remote Valet, 5 zone protection with LED intrusion notification, Dual-stage shock sensor with warn away, programmable chirp duration for siren and / or horn output, Panic Mode, three auxiliary outputs for priority door access, dome light output, OEM alarm control, retained accessory output, constant while pressed, or toggle On/Off (30 or 60 seconds timeout or off with ignition).</p>	
<b>RF KITS</b>		
<b>AS-RFK 1710</b> 	<p><b>1-WAY RECEIVER KIT WITH UP TO 3000 FT OF RANGE</b></p> <ul style="list-style-type: none"> <li>• 1 x RX Antenna receiver (SH 433-120)</li> <li>• 2 x 1-way transmitters (ASRA-2510 FBK)</li> <li>• 1 x XL202 RFTD</li> <li>• 1 x RF interconnect cable (RKE9-HAR)</li> </ul>	
<b>AS-RFK 2315</b> 	<p><b>2-WAY RECEIVER KIT WITH UP TO 4000 FT OF RANGE</b></p> <ul style="list-style-type: none"> <li>• 1 x RX Antenna receiver (FM-TW 130)</li> <li>• 1 x 2-way transmitters (ASRF-3515 FBK)</li> <li>• 1 x 1-way transmitter (ASRF-1510 FBK)</li> <li>• 1 x XL202 RFTD</li> <li>• 1 x RF interconnect cable (RKE9-HAR)</li> </ul>	
<b>AS-RFK 2800</b> 	<p><b>2-WAY RECEIVER KIT WITH UP TO 4000 FT OF RANGE</b></p> <ul style="list-style-type: none"> <li>• 1 x 6711T SST receiver</li> <li>• 1 x 2-way transmitters (ASRS-7503 BKR)</li> <li>• 1 x 1-way transmitter (ASRF-1553 BKR)</li> <li>• 1 x XL202 RFTD</li> <li>• 1 x RF interconnect cable (RKE9-HAR)</li> </ul>	

# GO Series Starters & Alarm Combos

Models		Features
GS GO SERIES 2-WAY FM ALARM STARTER COMBO SYSTEM		
<div>GS-6850TW FM</div> <div></div> <div></div>	<p>The GS-6850 TW FM includes one 6-button, 2-way LCD transmitter, one 5-button, 1-way companion, a FM Monopole antenna with embedded bright blue LED, with up to 3500 ft / 1070 m of range. The unit features status via alphanumeric / icon LCD transmitter display, Signal reception / operation confirmation (beep / text), Bright backlit liquid Crystal Display, 2-way communication, Six-Tone 120db miniature siren, Horn Output, Double Guard Shock Sensor, Failsafe Starter Kill output, and an Optional sensor for remote temperature readout.</p>	
<div>GS-2462TW FM</div> <div></div> <div></div>	<p>FM long range 2-way remote starter for Manual / automatic transmission (configurable) with multi-level, 2 - 5-button LCD transmitter, audible &amp; visual confirmation via alpha numeric with icon RGB backlit LCD, mono-pole FM transceiver with built-in bright blue status LED, and up to 3500 ft / 1070 m of operating range. Features Idle Mode, Turbo Mode, Ignition Valet, Home Valet, Remote Valet, "Smart Secure Lock" OEM alarm control, and constant while pressed lock and unlock. Provides two auxiliary outputs for priority door access, adjustable OEM horn control with Panic Mode, constant while pressed, or toggle On/Off (30 sec. or 4 min. timeout).</p>	
GS GO SERIES 2-WAY AM STARTER SYSTEM		
<div>GS-2260TW AM</div> <div></div> <div></div>	<p>The GS-2260 TW AM includes one 6-button, 2-way AM transmitter, one 5-button, 1-way companion with up to 2200 ft/ 670 m of range. Status via alphanumeric / icon LCD transmitter display, Signal reception / operation confirmation (beep / text), Bright backlit Liquid Crystal Display, and a Monopole antenna with embedded bright-blue LED. This unit features keyless entry, extra outputs that can be configured as an OEM horn control with panic mode or priority door access.</p>	
GS GO SERIES 1-WAY STARTER SYSTEM		
<div>GS-1655 SH</div> <div></div> <div></div>	<p>The GS-1655 SH includes two 5-button transmitters, with up to 2800 ft / 800 m of range, multi car operation, 5th button with stop / panic function, built in basic OEM style alarm, Virtual Tach System (automatic transmission mode ONLY), configurable outputs, 3 auxiliary outputs, manual / automatic transmission, and Smart Start compatible.</p>	

**Mix & Match combination. Buy any of our GO Series (GS)units, plus a bypass of your choice, and and receive an extra saving on the listed Smart Start modules.**

ASRF-6601BKLCD		Frequency	433 MHz	Compatible with : AS-6850 TW FM, ASL-550 TW FM	
		Band	FM		
		LCD	Yes		
		LED Color	N/A		
		Two Way	Yes		
		LED Buttons	N/A		

## AUTOSTART TRANSMITTERS

Models		Description			
AS-6870TWRT		Buttons	6	Battery	LI-ION
		Frequency	433 MHz		
ASRF-6603BC		Band	FM		
		LCD	Yes		
		LED Color	N/A	Compatible with :	AS-6870 TW FM
		Two Way	Yes		
		LED Buttons	N/A	<b>RECHARGABLE TRANSMITTER</b>	
AS-6880TWRT		Buttons	5	Battery	LI-ION
		Frequency	433 MHz		
		Band	FM		
		LCD	Yes		
		LED Color	N/A	Compatible with :	AS-6880 TWS, AS-2481 TWS
ASRS-7504BK		Two Way	Yes		
		LED Buttons	N/A	<b>RECHARGABLE TRANSMITTER</b>	
AS-2520TWRT		Buttons	5	Battery	AAA Qty 2
		Frequency	433.92 MHz		
		Band	FM		
		LCD	Yes		
		LED Color	N/A	Compatible with :	AS-2500 TW, AS-2560 TW,
ASTR-LCD4FM		Two Way	Yes		AS-6000 TW, AS-6060 TW
		LED Buttons	N/A		

## AUTOSTART ANTENNAS

Models		Description	
ANT 1200 RCA		Dipole Antenna (RCA Plug)	AS-1200, AS-1260
ANT R1		Dipole Antenna (3 pin, no LED)	AS-1414, AS-1424, AS-1474, AS-1484, AS-6105, AS-6104, AS-6165, AS-6164
ANT SH1		One Way Monopole Antenna 433 MHz w/red LED	AS-1414HF, AS-1424HF, AS-1484HF, AS-1414iHF, AS-1424iHF, AS-1452iHF
ANT SH 433		Dipole Antenna	AS-1525SH, AS-1524SH, AS-1585SH, AS-1584SH, AS-6105SH, AS-6104SH, AS-6165SH, AS-6164SH
ANT MP SH		2-Way FM Monopole Antenna	AS-2505TW, AS-2565TW, AS-4505TW, AS-4565TW
ANT SR 433 100		One Way Monopole Antenna 433 MHz w/red LED	AS-1414HF, AS-1474HG, AS-1424HF, AS-1484HF, AS-1414iHF, AS-1424iHF, AS-1475, AS-1774SR
ANT SH 433 120		One Way Monopole Antenna 433 MHz w/Blue LED	AS-1271, AS-1272, AS-1774, AS-1775, AS-1780
ANT SH 433 110		One Way FM HDR Monopole Antenna w/blue LED	AS-2500TW, AS-2560TW, AS-6000TW, AS-6060TW
ANT TW 100		2-Way FM Monopole Antenna for LCD Units	AS-2510TW, AS-2570TW, AS-6010TW, AS-6070TW
ANT FM TW 122		2-Way FM Monopole Antenna for LCD LED Units w/Blue LED	AS-2300TW, AS-2350, AS-2361TW, AS-2461TW, AS-6450TW, AS-6600TW, AS-6650TW, AS-6850TW
ANT FM TW 130		2-Way FM HDR Monopole Antenna w/blue LED	AS-2371TW, AS-2381TW, AS-2471TW
ANT FM TW 140		2-Way FM HDR Monopole Antenna for LCD units	AS-6870TW FM
ANT FM TW 151		2-Way FM SST Technology Monopole Antenna for LCD Units	AS-6880TWS, AS-2481TWS

## AUTOSTART ACCESSORIES

Models	Description	
AS-PRG1000		Tech Tool - Large, Easy to read 29 character - by- 4 - line bright blue backlit LCD - Easy connection to remote car starter unit via antenna's cable - Effortlessly programs remote starter's functions, options. Tach and transmitters - Multiple user - programmable memory preset for quick programming of features / options - Quick read / write functions. Perfect when swapping a unit - Built-in OBD2 code eraser - CAN ready - PC updateable for future firmware upgrades.
TWR-LC		Leather case for LCD transmitters
AS-TEMP-101		Plug-in temperature sensor for LCD systems
INV-200		Plug-in door lock polarity inverter
AU-POT AU-LCR		30/40 Amp Relays 30/40 Amp Econo relays
AU-70P		128db Multi-tone siren
AU-RS5 AU-RS5HD		5-Wire relay socket Heavy Duty 14g 5-wire relay socket
